CIS 4120/5120 Spring 2026

Tools for Chamber Musicians are...

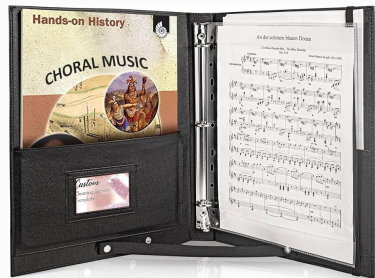

Outdated.

Chamber musicians still rely heavily on **clunky, messy paper scores and PDFs**, while rehearsals and performances are fast and collaborative.

Fragmented.

To go digital, musicians **juggle separate apps** for viewing PDFs, annotating parts, sharing edits, listening to the music, etc.

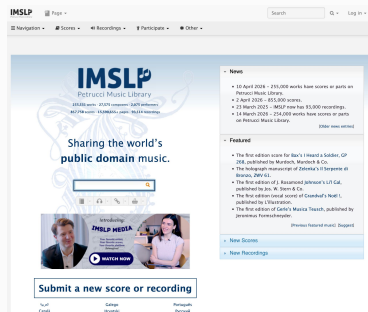

Existing Solutions

01

Pen & Paper

Paper scores are familiar, but they're hard to update, impossible to sync across an ensemble, and inconvenient.

02

IMSLP

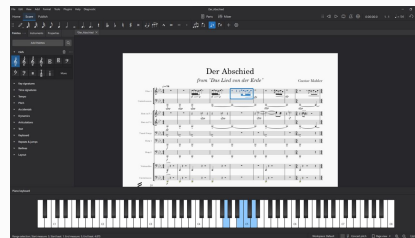

IMSLP provides public-domain scores, but is primarily a library, not a rehearsal tool.

03

Note-taking Apps

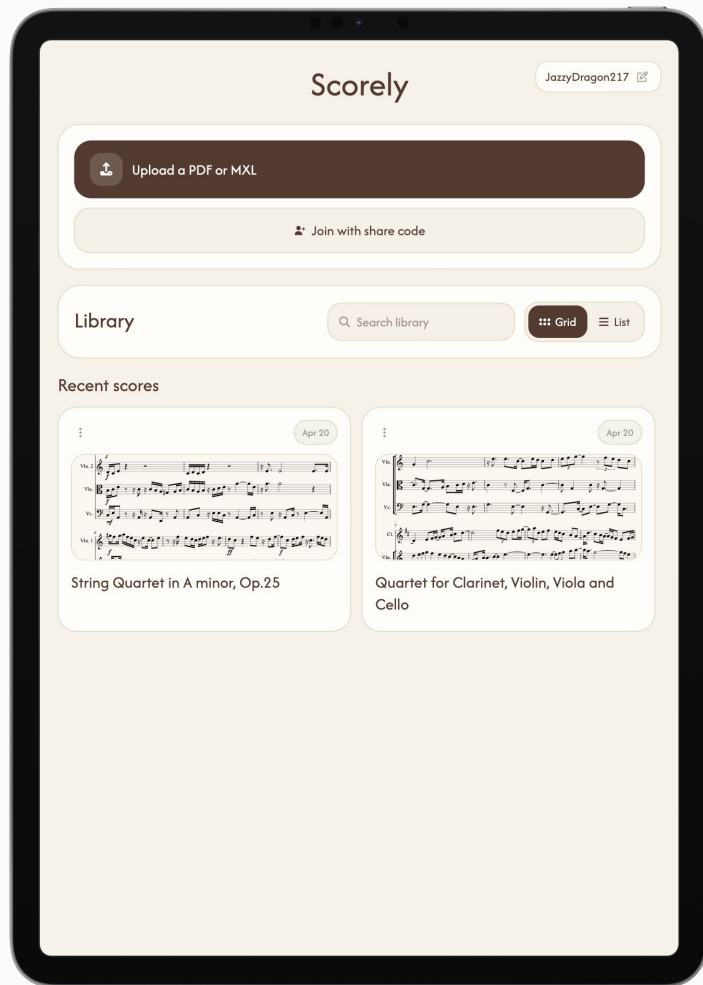

Goodnotes is useful for marking up PDFs, but it's a general note-taking app rather than a chamber music workflow tool.

04

Musescore

MuseScore is strong for notation and playback, but it's built more for composing and editing scores than for chamber rehearsal.

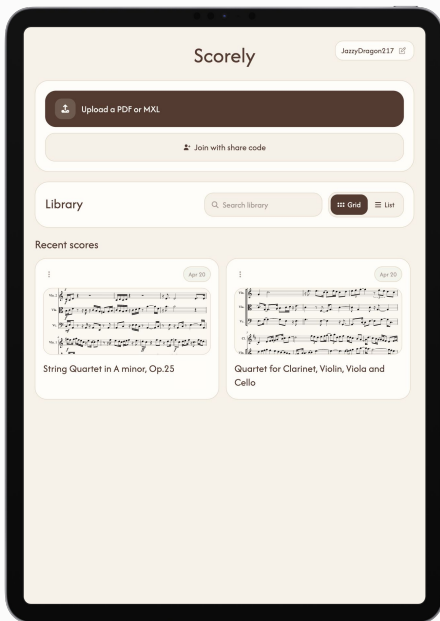

Our Solution

Scorely reimagines how chamber musicians rehearse, practice, and perform together.

It gives ensembles a **shared, interactive music workspace** with score upload, digital viewing, playback, annotation, sharing, and hands-free page turning. Scorely creates a more **seamless** and **collaborative** rehearsal experience.

Follow the Score

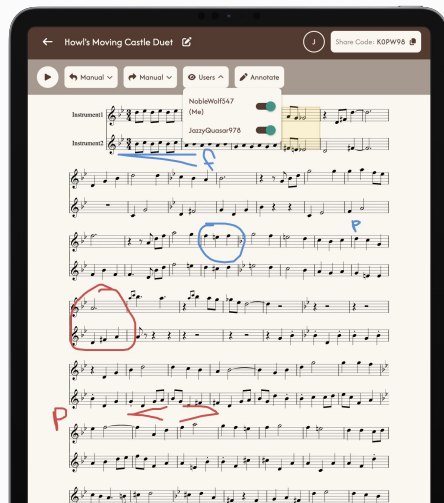

Click the play button to listen to the piece from the beginning or click any measure in the piece to start playback from there.

The screenshot shows a digital music score interface on a tablet. At the top, the title "Howl's Moving Castle Duet" is displayed next to a share icon. A "Share Code: K0PW98" is shown in a box on the right. Below the title, there are four buttons: a play button, "Manual" (with a dropdown arrow), "Manual" (with a dropdown arrow), "Users" (with a dropdown arrow), and "Annotate" (with a pencil icon). The main area displays the musical score for two instruments, "Instrument1" and "Instrument2". The score is written in 3/4 time with a key signature of one flat (B-flat). It consists of 12 staves, with the first two staves for each instrument. The score is displayed in a clean, modern font with various musical notations including notes, rests, and bar lines. At the bottom, there is a navigation bar with a left arrow, the text "Page 1 of 3", and a right arrow.

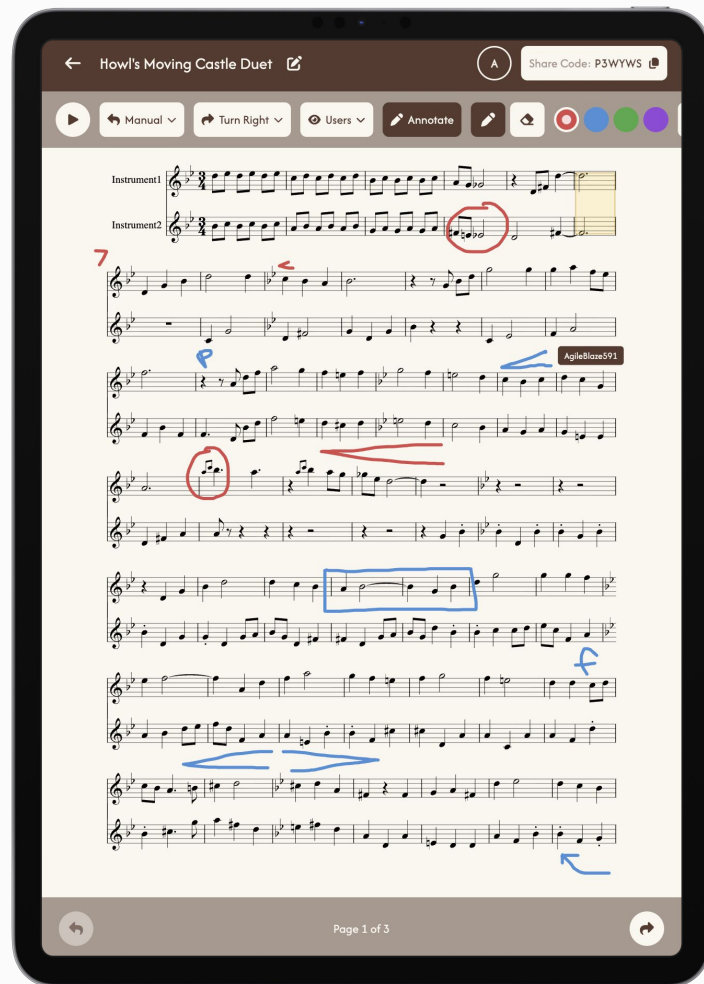

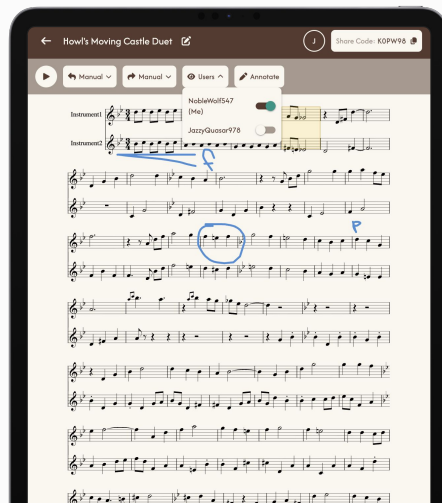

Annotate Together

When you're on a shared score, you can view all of your collaborators' annotations, or just your own.

User Feedback

“As a chamber musician, I love that Scorely feels built for the way we actually work. The shared annotations, playback, and hands-free page turning made practicing and performing much smoother.”

“Scorely took a lot of friction out of rehearsal. We spent less time sorting out markings and page turns, and more time actually making musical decisions together.”
